Objective

To get involved in a company whose work aligns with my interests, allowing me to showcase my skills, improve learn and grow to provide me with a second technical career with a perfect work-life balance.

Summary

I do code in my free time and it has turned out that my free time coding has produced some cool products that people around the world love to use. More likely to hack into web applications and solve the issues.

I am more passionate to contribute and work with open-source projects. More Enthusiastic to learn new things. An active member in most of the tech communities in Kerala, It will help me to make a better knowledge in the technical field.
